

A wireframe diagram of a mobile application interface. The interface is contained within a rounded rectangle representing a mobile device. At the top, there are four small circles and a horizontal bar, likely representing a status bar or navigation bar. The main content area is divided into several sections: a top section with a 'logo' box and a 'titre' box; a 'menu header' section; a large 'galerie photos' section; a 'contact' box; and a 'menu footer' section. The layout is clean and minimalist, using black outlines and text on a white background.
