

A wireframe diagram of a mobile application interface. The interface is contained within a rounded rectangle representing a mobile device. At the top, there are four small circles representing status bar icons. The main content area is divided into several sections: a top section with a 'logo' box and a 'titre' box; a 'menu header' section; a large 'contact' box; a 'map' section; another 'contact' box; and a 'menu footer' section. A home indicator bar is at the bottom.
